

PRECISION TO BE BON

We at BON believe in and stay true to our word “QUALITY YOU CAN TRUST”.

We are driven by an innate passion for brilliance and excellence. Our aim is to provide the automotive industry with a level of quality that only sets us apart but also increases the quality exception from the industry, on the whole, and reliability to manufactures. With a wide global presence, we not only have the means to survive in the global market but also have the expertise to thrive in it. Today like the prism we have spread our aura of being professionally managed and committed organization over several countries. We are strategically located in the financial and trade hub of India, Mumbai. We have an excellent network and tie-ups with logistics services to connect at the earliest to meet your sensitive deadlines. We have an efficient and dedicated team to understand, execute, and deliver the job on time.

Mission & Vision

The foundation of our business is laid strong by the quality and excellence of our products along with the integrity and enthusiasm we have while serving our customers. Our goal is to keep striving to make Bon International a premier destination for precision automotive parts.

To continue meeting the product and service needs of the global automobile industry with ever-improving efficiency and precision.

Quality Control

Quality of our products and after sales services has been consistently meeting and exceeding customer requirements.

Different customers have different expectations and thus, we adapt our products and services to match what each customer exactly wants.

We first spend time in thoroughly understanding the consumer's needs and then translate this information into technical specifications.

These specifications then guide us through the production of the products and till the after sales service - each process bound by our exceptional quality standards.
